| <b>61 Total Credits</b>   |  |

#### Transfer Guidelines:

1. Resurrection University is an IAI receiving institution. Conferred Associates of Arts degrees and Associates of Science degrees meet all general education requirements for block transfer. If an Associates of Arts or an Associates of Science degree has not been conferred, then courses will be transferred on a course by course basis.
2. To be competitive, a cumulative GPA and science GPA must be 2.0 or higher on a 4.0 scale and an overall HESI exam score of a 70% or higher.
3. Grades of 2.0 or above on a 4.0 scale completed at regionally accredited colleges or universities are transferrable. Courses must be considered college level and have been used to fulfill graduation requirements and degree requirements at the previous college or university.
4. Remedial/pre-college level courses, audit, credit, proficiency scores are not transferrable.
5. No courses with final grades below 2.0 on a 4.0 scale may be transferred.
6. All College Math and Anatomy & Physiology are considered expired for the BSIT-Pre-licensure program if taken more than 5 or more years prior to your intended start term. †
7. General education physical and life sciences that have been fulfilled by Imaging Technology support course work may be substituted with general elective coursework.
