

THE FUTURE OF HEALTHCARE EDUCATION, NOW AVAILABLE IN OAK BROOK.

To The *Daily Herald* Community,

Oak Point University, formerly Resurrection University, has expanded with a new campus in Oak Brook.

We are delighted to be a part of the community and invite you to explore our offerings.

We're redefining what a university can and should be.

Oak Point University is a university focused on developing smarter, savvier professionals ready to own today and tomorrow. We offer programs for those interested in a successful career in healthcare.

We offer undergraduate, graduate, and doctoral degrees in our College of Nursing and undergraduate programs in the College of Health Sciences. We serve students of all ages and all backgrounds. In fact:

- The average age of our students is 30
- 50 percent of our students are career changers
- 20 percent of our nursing students are male
- In addition to our degree programs, we offer microcredential/badging programs and continuing education through our School of Emerging Education.

The world has changed. And so have we.

Our new Oak Brook campus features exceptional educational environments and skills training. The 12,000 square foot, state-of-the-art Simulation Learning Center provides students with patient manikins that simulate health challenges including seizure, stroke, and heart attack. We train students in simulated hospital, operating room, clinical, and home health settings.

As the state and country face a shortage of healthcare workers, Oak Point University is developing a new pipeline of professionals. We are partnering with high schools and community groups to educate students as medical assistants and patient care technicians.

From this point forward, own your future.

Are you, or someone you know, interested in a career in healthcare? We will educate and prepare you for a rewarding experience.

Please visit us at 2122 York Road in Oak Brook, at 1431 Claremont in Chicago, or online at oakpoint.edu.

Thank you for welcoming us to the Oak Brook community. We look forward to meeting you!

Sincerely,

Therese A. Scanlan, EdD
President
